Retransmitted

17) As Government are aware plans for the establishment of regional laboratories in a few districts to start with, for examining water and articles of food are being formulated by the Department of Public Health This will take sometime

18) Meanwhile the Municipal Corporation has come forward to undertake such examinations in their Laboratory and this could be made the regional laboratory for Mysore District

19) The Municipality has proposed the levy of a uniform charge of Rs 5/- for every sample analysed irrespective of the type of material received The Corporation of the city of Bangalore have also been charging Rs 5/- for any type of analysis done in their Laboratory This seems incorrect as the labour, time and material required for analysis of different articles vary A schedule of fees should be drawn up for the examination of different articles and these must be uniform in all laboratories

20) Government have sanctioned a scale of fee for the Public Health Institute as appended

Subject Extending the scope of examination of Food and other samples in the Health Laboratory of - Misee municipal Offices and levy of fees therefo

---

I write to state that the Laboratory attached to the Health Section was designed to examine samples of Food and other articles in the city area and the experience for the past several years has been that samples of articles are not only being received from Departments and other sources not only in the city area but also from places like 'Fern Hills' Davanagere Manjangud French Rocks (Pandavapura), Mandya and such outside places While a nominal fee of 0-8-0 is levied for samples of milk or coffee and Rs 1-40-0 for samples of ghee or butter no fee is levied for samples of water subjected to bacteriological or other analysis The receipt of articles for examination from outside agencies has not only devolved additional labour but also consumption of considerable material required therefor of the Laboratory

With a view to regulate the system of analysis of articles payment of fees therefor the several Municipalities of Mandya Pandavapura Chamarajanagar Gundlupet Hunsur Srirangapatna and other were all consulted if they are agreeable to meet the charges in case it is levied All of them have communicated acceptance of the proposal

The Director of Public ealth has furnished the opinion that the above Laboratory might be considered as a regional labo atory and scale of fees be made uniform with that levied in the Public Health Institute, Bangalore

The Deputy Director of Public Health who visited the Laboratory in the early pa t of January 1952 was of opinion that while extending the scope of examination to outside places, the uniform scale of fees as in vogue in Bangalore Corporation viz , Rs 5/- be adopted

The Health Committee and the Municipal Council before whom a proposal to the above effect came up for consideration at their meeting held on 20-1-1953 and 5-2-1953 have duly approved of the proposal

In enclosing herewith copies of the two resolutions as also the note of the Health Officer dated 30-12-1952, I request that orders of Government may kindly be obtained to treat this Laboratory a Regional one and to levy a uniform fee of Rs 5/- on all articles received for examination

Yours faithfully,

(F Abdul Rahim)
Municipal Commissioner

Forwarded with compliments

(A Krishnamurthi Rao)
President

Note dated 30th December 1952 from the Health Officer, C I C Mysore

---

Re Proposals submitted in No HL 1 dated 1-1-1950 regarding examination of samples of foodstuffs water etc, at this office Laboratory from outside places on payment of fees to be prescribed and orders thereon that the opinion of the Director of Public Health may be obtained

---

The Director of Public Health has stated that this office Laboratory may be considered as a Regional Laboratory for the whole District and suggested that the fees to be charged should be uniform with the fees charged at the Public Health Institute Bangalore and that requisite equipment and personnel may be provided also

The scheme was referred to the several Local Bodies in Mandya Mysore and Hassan Districts for their opinion in the matter The Municipal Councils of Seringapatam Holenarasipur Arasikere Mandya Chamarajanagar Gundulpet Nanjangud Tarikere Hassan and Arsikere Towns have expressed their unanimous approval to the introduction of the scheme and their co-operation in the matter

The Deputy Director of Public Health while inspecting the working of the Laboratory section has also suggested that the work may be undertaken the fees to be levied to be uniform with the fees levied in Bangalore City Corporation It is stated that the Bangalore City Corporation is charging a uniform fee of Rs 5/- per each article examined in their Laboratory

The same rate of fee as is charged in Bangalore city Corporation i e, Rs 5/- per sample of food or other articles may be charged at this Laboratory also and the work of examining samples received from outside places in the District and of issuing the necessary certificate may be undertaken Specific proposals regarding additional equipment and personnel etc will have to be considered only after studying the nature and volume of work involved on introduction of the above scheme For the present the scheme may be approved to be undertaken, fixing the fees to be charged at Rs 5/- per each sample

Sir,

Subject - Extending the scope of Examination of Food Handlers and other samples in the Health Laboratory of Municipal Offices and levy of fees therefor

---

With reference to your letter No L 285/CII 75-53-2 dated 11-4-53 on the above subject, I write to state that the expected realizations as a result of the proposals may be about Rs 2880/- at Re 5/- per sample for about 4 samples that could be expected per month from not less than 12 Municipalities who have consented to get their samples tested and pay the ~~pay~~ fee therefor No extra expenditure is proposed in this connection as it would be possible to attend to such examination from the normal provision made every year

It may be added that the proposals in question were considered by the Council at the instance of the Director of Public Health and recommended The food Adulteration Act is in force all over the State and by making provision for the examination of samples to be received from outside, it would be possible for the several Municipalities to enforce the provision of the Food Adulteration Act in their areas

In these circumstances, I request that orders of Government may be kindly obtained approving the proposals of the Council

Yours faithfully,

Mysore

Sir,

Subject - xt ring the scope of amination of Food Handlers and other samples in the Health Laboratory of unicipal Cities and levy of fees therefor

---

With reference to the correspondence resting with your letter 62 C I 1143/52-53 dated the 8th ay 1953 on the subject mentioned above, I am directed to state th t the Department of Public Health is considering proposals for the establishment of Regional Laboratories, in a few District to start with, for examining water and articles of food and this will take some time. Your Municipal Laboratory could be made the Regional Laboratory for Mysore District.

You propose to levy a uniform charge of Rs 5/- for analysis irrespective of the type of material required for analysis. This appears to be not correct as the labour, time and material required for analysis of different articles very much hence, there is need for fixing a schedule of fees for the examination of different articles with a view to have uniform rates in all laboratories i in all Government and semi-Government institutions as those approved for the Public Health Institute i e ,-

1	Complete chemical analysis of water for commercial purposes	Rs 30/-
2	Analysis of drugs	25/-
3	Ordinary analysis of water for sanitary purposes	20/-
4	Chemical analysis of wines, spirits etc ,	20/-
5	Analysis of foodstuffs	10/-
6	Examination of ghee, butter etc , from the Chief Marketing Officer and from the Municipalities	3/-

I am, in the circumstances explained above, to request that the Municipal Council may be informed of the above proposals of the Director of Public Health and send up their opinion to Government early.

Yours faithfully,
Sd M Hanumanthappa,
Secretary to Government,
Local Bodies and Planning Depts.

Memo No L 5434 /5-8-53

Copy of the above is forwarded to the Director of Public Health in Mysore, Bangalore, for information, with reference to his unofficial note No C 20-55/53-54 dated the 22nd July 1953

Sir,

C M 75-53-4

Subject Extending the scope of examination of Food-handlers and other samples in the health Laboratory of municipal offices and levy of fees therefor

With reference to your letter No L 5433 dated 5-8-53 on the above subject, I write to invite your reference to the 4th para of this office letter No C2 CR 1143/52-53 dated 13-3-53 It will be seen therefrom that the proposal to levy an uniform rate of Rs 5/- per analysis is based on the suggestion of the D D P H , contained in his letter No D 940/51-52 dated 21-2-52

The levy of the rates adopted for the public Health Institute at Bangalore may not be workable in this area

The conversion of the present laboratory to a regional one is being considered for the first time and the levy of such heavy rates as in vogue in Bangalore may not induce other municipalities in the district whose income is low, to send their samples for examination The Council have therefore resolved at their meeting held on 28-9-1953 to request the Government to approve of the rates proposed by them already

In these circumstances I request that orders of Government may be kindly obtained, approving the proposal of the Council

Yours faithfully,

(N Lakshman Rau)
